INTRODUCTORY

In presenting the thirty-second issue of the Sacramento City Directory, and by comparing it with the 1921 directory, the publishers feel that the city has made great strides in its growth, as well as in the number and variety of industries.

We desire to thank all who have contributed to the success of the work either by generous patronage or in co-operation in furnishing information to our enumerators. The information has been taken by men who are carefully trained in this work and we believe this directory will compare favorably with any previous issue.

POPULATION

The present volume contains by actual count **35,446** names, exclusive of married women and children, single women without occupation, and also Orientals, an increase of **372** names over 1921. Using the multiple of 2½, which is in general use by directory publishers, this given an estimated population for **Greater Sacramento of 88,615,** an increase of **930** over 1921.

Respectfully,

SACRAMENTO DIRECTORY CO.

March 15, 1922.

IMITATION is still the sincerest flattery. The value of individually TAILORED CLOTHES is so well known that makers of clothes in the mass have borrowed the term until some of the original significance has been forgotten.

The unquestioned excellence of STRAUB tailored clothes is well established. Their real economy is apparent when viewed in the light of value received.

Material worthy of painstaking workmanship, perfect fit assured only by the "skeleton tryon," adaption of line and style to individual taste and requirements—these elements insure lasting satisfaction and real economy of quality.

Men's fashions for 1922 are free from exaggeration, oddities and incongruities. Never, perhaps, have they been so thoroughly artistic as at present, and by availing yourself of the STRAUB service you can be assured that these features will be reflected in every line and detail.

SACRAMENTO DIRECTORY CO'S

DIRECTORY OF HOUSEHOLDERS

1922

In the following list, the Streets, Avenues, etc., are arranged in alphabetical order without regard to location. The number of each building on the street is given in numerical order, and opposite the number is printed the name of the householder or householders. Houses that remain vacant at the close of the canvass have the word "Vacant" printed opposite the number. Houses with no numbers are not given. To find the occupation of householder, refer to the alphabetical list of names. For location of Streets, Avenues, etc., see page 9.

To phone a person whose name does not appear in the City Telephone Directory, look said person up in alphabetical section, ascertain the house number, refer to "Householders' Guide" for corresponding street and number and the householder or householders names appear, they being in phone book if there is a phone in the house. If no phone in the house neighbors on each side will be seen before and after name, also people opposite.
